## Experience

**.NET Intern Developer**, Itransition Group, Tashkent. **Internship** *Sep 2024 - Present*

- Completed a .NET internship at Itransition, working on weekly tasks and participating in meetings covering .NET, React, Git, and databases
- Developed a full-stack application using .NET and React as a capstone project to solidify my skills
- Received daily or regular documentation and guidance, enhancing my learning and project implementation.
- Developed skills in frontend, backend integration and DevOps through consistent hands-on tasks and project work.

**Golang Back-End Mentor**, Haad Learning Center, Tashkent. **Full-time** *Oct 2023 - May 2024*

- Mentored over 50 students, significantly improving their understanding and proficiency in Golang and database management by providing one-on-one guidance, conducting workshops, and leading team-based projects..
- Completed over 10 backend projects in Golang, delivering robust, scalable, and efficient backend solutions by applying industry best practices and collaborating closely with students.
- Taught database concepts and best practices, enhancing students' ability to design and manage databases effectively through structured lessons and hands-on labs.
- Led a team of students, fostering teamwork and ensuring project goals were met on time by coordinating tasks, providing leadership, and encouraging collaboration

## Education

**Foundation, Computer Science.** Haad Learning Center, Tashkent. *May 2023 - Oct 2023*

Focused on Algorithms and Data Structures, Math, Computer Science, Machine Code and Assembly with Intel 8086 microprocessor, Golang programming language for Foundation skills

**.NET Bootcamp Result.** Haad Learning Center, Tashkent. *Oct 2023 - June 2024*

Focused on technology Microsoft .NET, Visual Studio, C# Programming language from Basic to Advanced, OOP Concepts, LINQ, Database Management Systems such as MS SQL Server and PostgreSQL, Implementing ORM features using EF Core, Web-Development with ASP.NET Core Web Framework, ASP.NET Core MVC, Design Patterns, SOLID, DRY, KISS, YAGNI principles, Software Architectures such as N-Tire Architecture, Microservice Architecture, Deployment with Docker, Over than 20 Projects during the Bootcamp with Best Practices, Team Working and Project Management

## Projects

**Road-To-The-Dream** (Personal Tracking Platform) *Feb 2023 - Present*

- Built the project "Road-To-The-Dream", focused on personal tracking.
- Improved project logic by 80% through hands-on practice, resulting in a more efficient and effective system.
- Enhanced the project's architecture, ensuring smooth and reliable performance.

**Arcana** (Learning Management System) *Mar 2024 - Present*

- Built the project "Arcana", with team focused on Learning management as Udemy .
- Contributed to Project and Improved project logic by 90% through best practices.
- Used ASP.NET Core Web framework for improve performance of the project.

## Skills

Teaching & Mentoring, Self Study, Problem-Solving, Time Management, Adaptability, Discipline, Critical Thinking, Creativity, Project Management, Attention to Detail

## Languages

- Russian: C1+ (Advanced Proficiency)
- Uzbek: Native
- English: B2+ (Upper-Intermediate)
